## Reasons for Revisions to Consolidated and Non-consolidated Forecasts

Due to robust sales of hotel memberships including Tokyo Baycourt Club and Grand HIMEDIC Club medical memberships, operating income, ordinary income, and net income are expected to exceed the forecasts we previously announced.

In contrast, net sales are expected to be lower than the forecast, chiefly because occupancy rates at resort hotels have fallen slightly short of target.

Note: The above forecasts were made based on information available as of the date of this release, as well as certain assumptions judged to be reasonable. Actual results may differ from the above forecasts due to changes in economic conditions or a variety of other uncertain factors.
