The Japanese economy during the fiscal year under review continued on a gradual recovery track, and although the pace of recovery in personal consumption was slow due to unseasonable weather as well as rising prices associated with the tax hike and yen depreciation, it reflected a temporary, reactionary decline following the consumption tax hike and improvement in corporate performance and the employment situation, etc.

Under such circumstances, during the fiscal year under review, the Company acquired luxury resort "The Kahala Hotel & Resort" in Hawaii, the United States in October 2014, marking the Company's first expansion overseas in Hotel Operations, and acquisition-related costs were incurred regarding this hotel. Furthermore, a portion of profits from hotel memberships for unopened hotels "XIV Toba Bettei" and "XIV Yugawara Rikyu" have been deferred until their openings, while the effect of the reactionary decline in consumption following the last-minute demand prior to the consumption tax hike was limited within a certain range and the number of HIMEDIC members and senior residence residents has increased due to expansion of Medical Operations. Combined with the recording of foreign exchange gains in non-operating income, net sales increased 3.1% year on year to ¥120,401 million, operating income increased 5.6% year on year to ¥16,041 million, ordinary income increased 20.1% year on year to ¥20,206 million, and net income increased 35.7% year on year to ¥11,851 million, reflecting higher sales and profits, and setting new records for net sales and each type of profit.
