2Q FY2025 Financial Summary

2Q FY2025 Financial Summary

1. Consolidated net sales and income increased, marking record-high net sales, operating income, and ordinary income for the six-month period.

***Net sales for three consecutive period and operating income for two consecutive period.**

2Q FY2025: Net sales 110.9 billion yen and Operating income of 12.4 billion yen

・Hotel Operations saw a significant increase in income compared to the same period of the previous fiscal year. Occupancy and unit prices exceeded the previous period and performance remained strong. In addition, profitability improved due to the annual membership fee revisions from January 2025, the revision of fees charged for hotel rooms at some facilities, and food and beverage price revisions.

・Medical Operations marked record-high sales and segment income for 2Q for the three consecutive period, continuing to exhibit strong performance.

2. Membership sales: Contract volume for the six-month period reached a record high for the five consecutive year.

2Q FY2025: Contract Values of Membership 69.0 billion yen: Total for Hotel, Medical, and Golf

・Hotel membership contract value totaled 64.7 billion yen, surpassing the record high attained for the same period of the previous fiscal year by approximately 17%.

・New sales properties remained strong with sales centered on the SANCTUARY COURT series.

*Sanctuary Court Kanazawa (Started Membership Sales in March): 37.3 billion yen, Sanctuary Court Awajishima (Started Membership Sales in June): 15.4 billion yen

・Medical membership contract volume reached 4 billion yen, resulting in strong performance close to the 4.2 billion yen attained for the same period of the previous fiscal year. The performance in the same period of the previous year benefited from the start of sales of new memberships.

3. Full-year forecasts revised upwards and record highs expected in net sales and all income items.

FY2025 revision target: Net sales of 260.0 billion yen and Operating income of 29.0 billion yen

・ In addition to strong performance in the first half of the fiscal year, the company expects to record revenue resulting from the opening of SANCTUARY COURT NIKKO in 4Q during the second half of the fiscal year. All three operations are expected to remain stable, and the company expects to reach new record highs in consolidated net sales, operating income, and ordinary income for three consecutive years.

4. Dividend forecasts (interim and year-end dividends) revised upwards and record-high dividend expected for the full year.

・The interim dividend will be 17 yen, up by 1 yen, and the year-end dividend is planned to be 17 yen, up by 1 yen, for an annual dividend of 34 yen, up by 2 yen for the full year. A record-high annual dividend is expected.

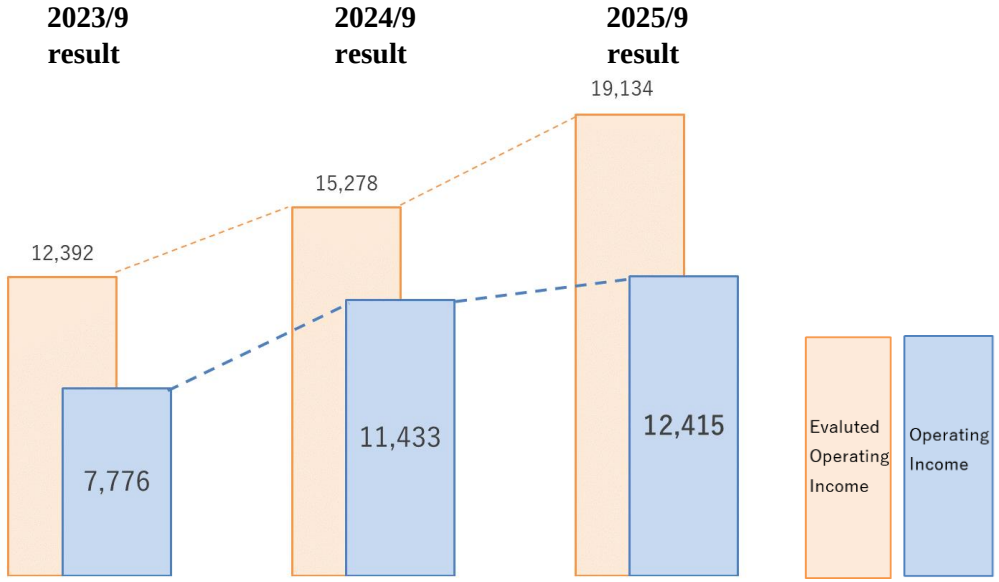
*Income attributable to owners of parent is labelled as “Net income” in this document.
*From the Financial Results Presentation for the 1Q under review, the calculation method for evaluated operating income has been partially changed.

・Each business segment remained strong, centered on membership sales. In consolidated performance, net sales and each income type were higher year on year and vs. initial targets, despite the effects of the increase in deferred revenue carried forward to the next fiscal year due to an increase in the percentage of new properties.

・Evaluated operating income, which reflects actual performance including deferred, performed stronger than expected, increasing 25% year on year and 21% vs. initial targets.

【2Q FY2025 Historical 3-Year Trends in Evaluated Operating Income】

* Figures in blue graphs are operating income on a recorded basis.



(Reference)
*Evaluated Operating Income => Performance with special accounting factors restated as actual values

・Addition of deferred real estate income from unopened properties(Not accounted for until opening)
・Subtraction of the portion of real estate revenue realized at the time of opening. (The portion of revenues associated with sales up to the previous period)

*Changes in calculation methods and presentation from the Financial Results Presentation for the period under review
The additional portion affected by the change in revenue recognition standards for HIMEDIC registration fees from April 2021 has already been standardized to a certain extent, and will not be taken into account in valuation gains in the current period's materials. (Past figures will also be retroactively displayed using the same standards.)

Segment Sales and Operation Income 2Q FY2025
3 main business segments

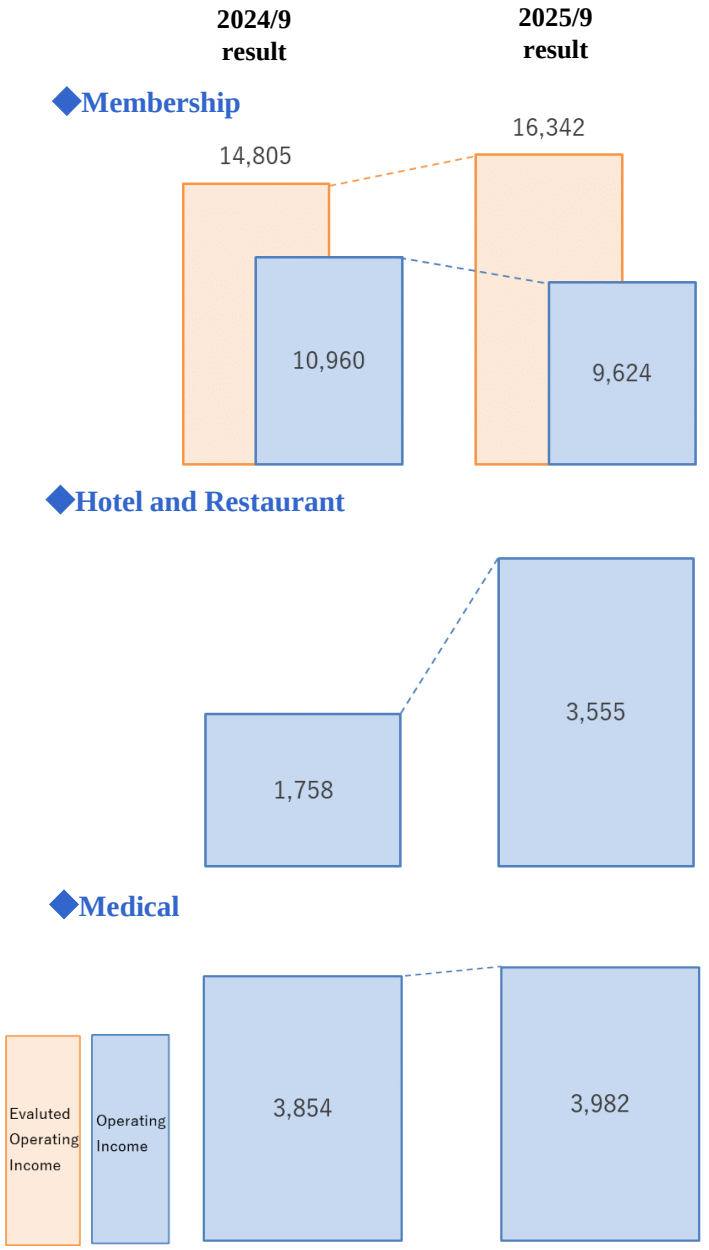
(April to September) RESORTTRUST GROUP

【Segment Sales and Operation Income 2Q FY2025】(Million yen)

		2024/9 results	2025/9 results	YoY Difference
Membership	Sales	31,193	28,018	(10.2%)
	Operating Income	10,960	**9,624**	(12.2%)
Hotel and Restaurant	Sales	51,002	55,264	+8.4%
	Operating Income	1,758	**3,555**	+102.1%
Medical	Sales	25,189	27,313	+8.4%
	Operating Income	3,854	**3,982**	+3.3%

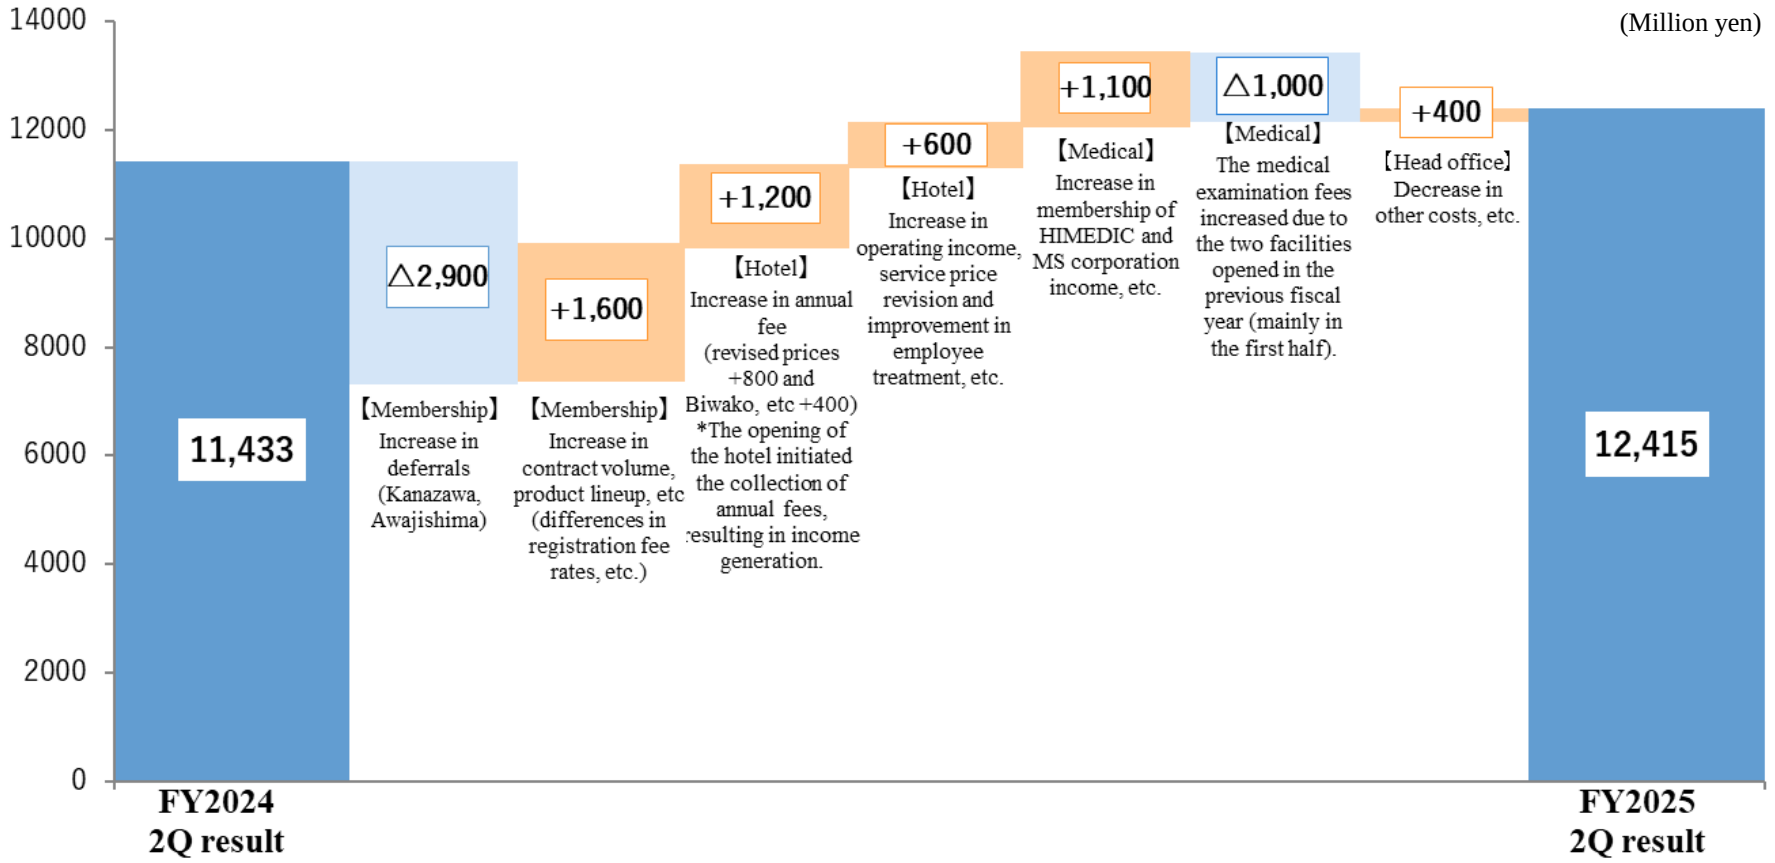
Membership	Evaluated net sales	45,319	52,561	+16.0%
	Evaluated Operating Income	14,805	**16,342**	+10.4%

- Membership: The effect of the start of sales of new membership in Kanazawa in March and in Awajishima in June resulted in a significant increase in contract volume. However, the percentage of incomplete properties sold increased, leading to an increase in deferred revenue carried forward to the next fiscal year (in the previous period, there was a high number of existing property sales). As a result, decreases in both sales and income were accounted for; however, when the deferred portion is corrected to the valuation basis, there is a 16% growth in sales and a 10% growth in income.
- Hotel and Restaurant: During the period under review, in addition to recording an increase in sales of approximately 800 million yen in the first half, due to the revision of annual fees from 4Q of the previous fiscal year, both occupancy and unit prices performed well, resulting in a significant increase in income. Income also increased due to the effects of revisions made to fees charged for certain rooms and food and beverage prices.
- Medical: HIMEDIC Business grew (revenue generated by an increase in the number of members), and medical service corporation revenue increased, resulting in higher sales and income. In the first half of the fiscal year, income is likely to grow at a slower pace due to an increase in fixed costs for two facilities that opened in the middle of the previous fiscal year. However, for the full fiscal year, we expect an overall increase in income of 700 million yen.



Operating Income 2Q FY2025 (compared with the same period of the previous FY)

【 Year to date consolidated operating income change (vs. previous year) 】

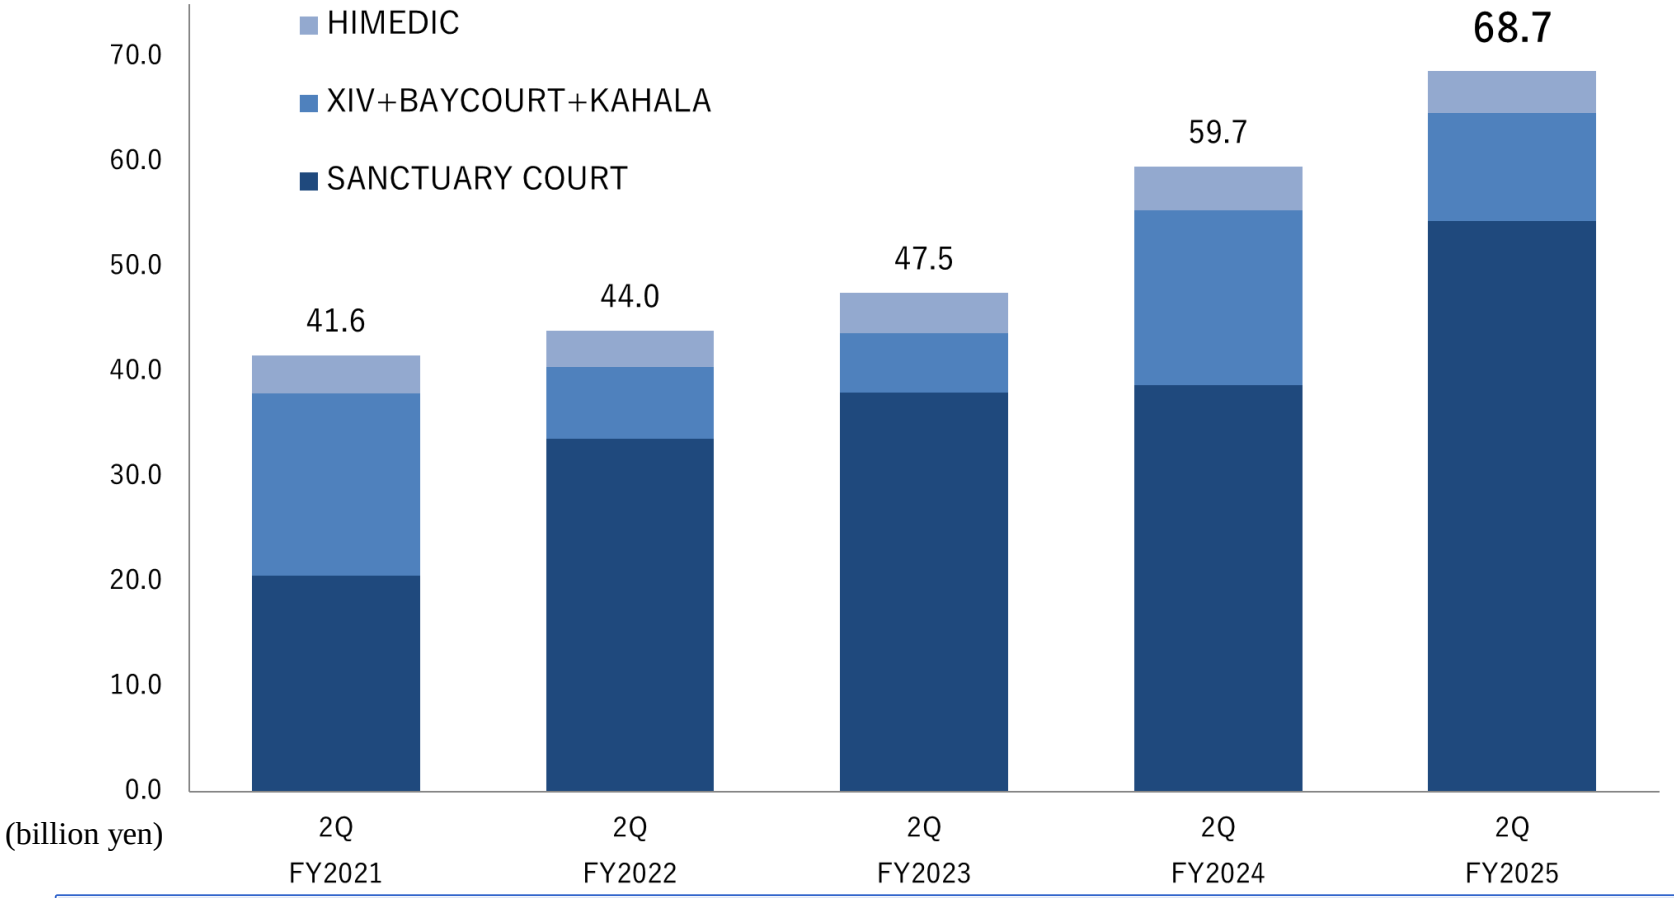


While contract volume has increased significantly in Membership Operations, real estate sales from properties not yet opened are recorded at the time of opening, so they are currently deferred and are a factor in the decreased operating income (in the previous fiscal year, there was a high number of existing property sales). The Hotel and Medical segments saw increased operating income due to an increase in membership and solid operational performance. The increase in fixed costs in the Medical segment will mainly be a factor in the first half of the fiscal year, so operating income is expected to increase significantly in the second half of the fiscal year.

Mainly indicators and Progress of Priority Measures

Contract Values of Membership 2Q FY2025 (April to September)

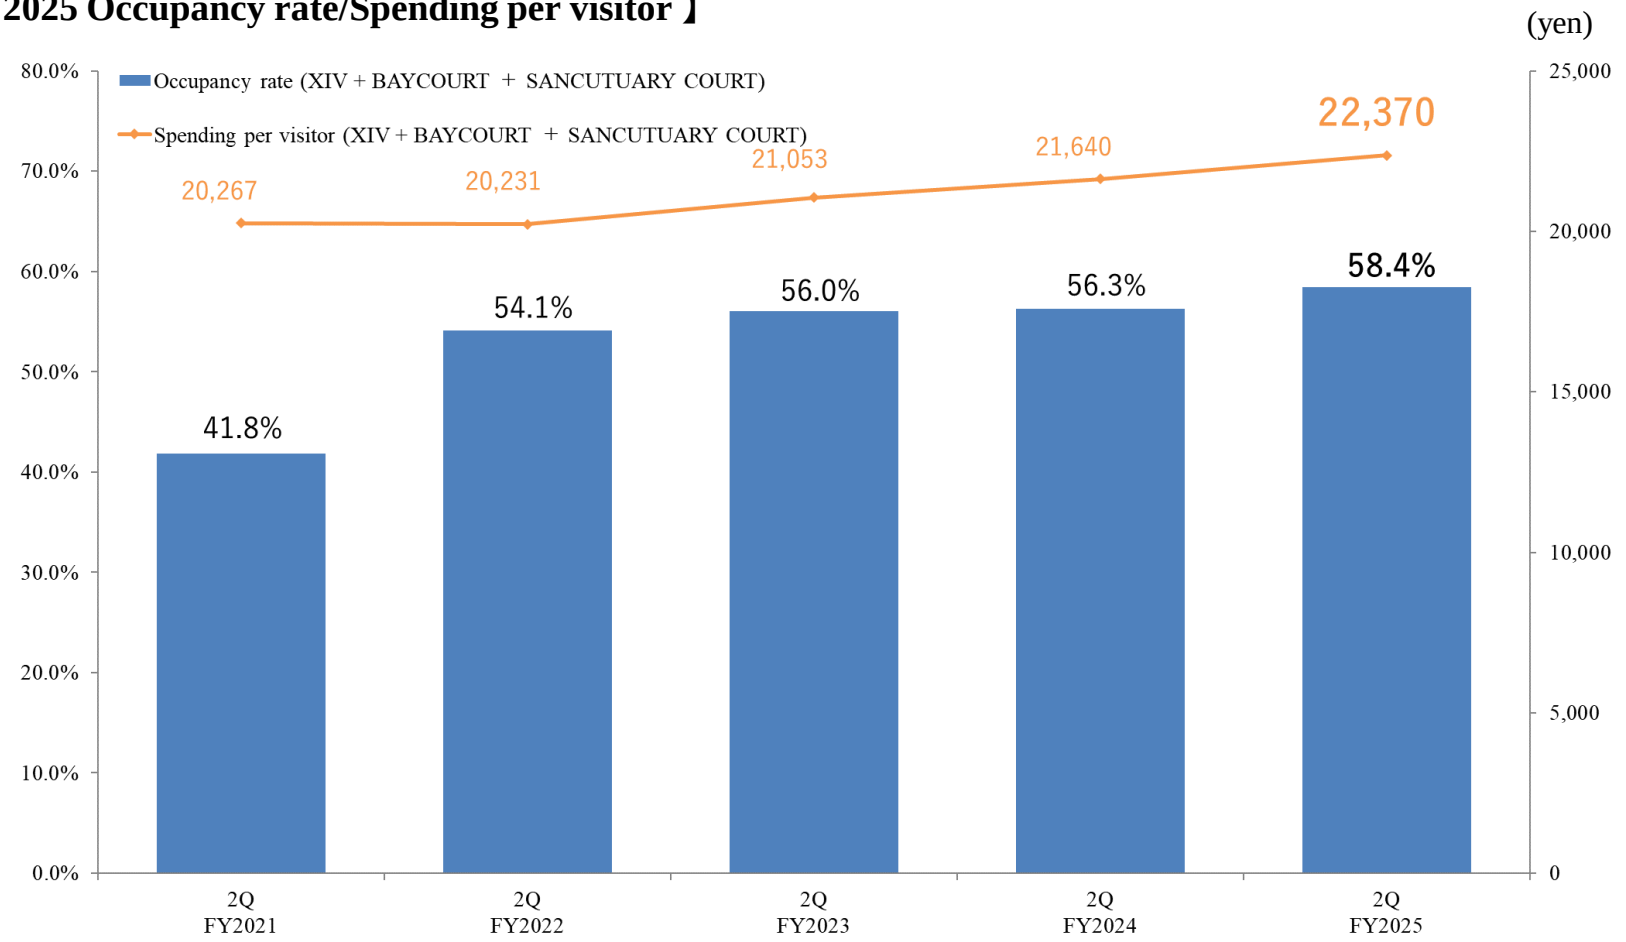
【Contract Values of Membership 2Q FY2025】 (Hotel + HIMEDIC)



During the period under review, in addition to the effect of the start of sales of membership for SANCTUARY COURT KANAZAWA on March 21 of the previous fiscal year, contract volume for XIV and Baycourt also remained robust. In addition, sales of memberships for the new product, SANCTUARY COURT AWAJISHIMA, started on June 20., resulting in an extremely high level of increase in overall contract volume at approximately 15% year on year.

2Q FY2025 Occupancy rate / Spending per visitor (April to September)

【2Q FY2025 Occupancy rate/Spending per visitor 】



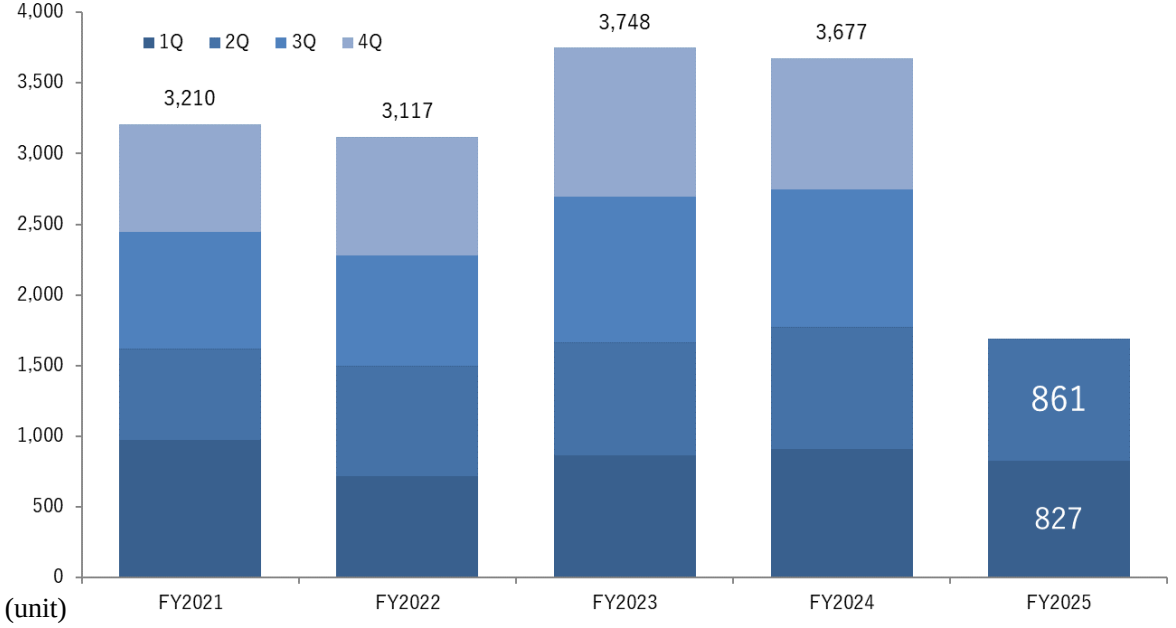
・The membership hotel occupancy rate remained on the rise even after COVID-19. The previous period was subject to factors for decrease, such as those related to typhoon and earthquake information; however, in the period under review, the occupancy rate remained strong, as the weather was mostly favorable.

・ Unit prices also continued to rise due to factors such as the revision of fees charged for hotel rooms at Tokyo Baycourt in April, and food and beverage price revisions in June.

Medical Segment Sales / Occupancy

【 Number of HIMEDIC sales units 】

・Strong performance of HIMEDIC membership sales continued from the previous fiscal year.



【 Senior Residence Occupancy Rate 】

Total 2,092 rooms

・The senior occupancy rate has remained relatively stable, recently staying at around 87%.

HIMEDIC
HIGH TECHNOLOGY MEDICAL COMPLEX
ハイメディック横浜ベイ

Aiming to achieve 'zero-level prevention' that eliminates the 'causes of cause' of disease, we started accepting membership applications for the HIMEDIC Yokohama Bay Course on October 23.

The health check center for this course is
located inside BASEGATE YOKOHAMA KANNAI, a new landmark in the Yokohama Kannai area.
The medical examinations are scheduled to commence in the Summer of 2026.

Transforming Japan's zero-level prevention from Yokohama Through enhanced focus on Sleep and Women's Healthcare

Released on October22.

Sleep

Based on the concept of “zero-level prevention,” which aims to eliminate the “causes of cause” of disease, this course focuses on sleep – a factor linked to the occurrence of various illnesses. By offering integrated health support based on sleep monitoring data collected via wearable devices and health check results, we hope to promote good health that is less susceptible to disease and less likely to require long-term care.

Women’s Healthcare

This course includes examinations for diseases commonly experienced by women, as well as tests related to female hormones. Based on health check results and also utilizing medical DX and femtech*, we will work on preventing disease onset.

Research is also planned on cancers that are common among women, such as cervical cancer, which is prevalent among younger individuals, breast cancer, and colorectal cancer, which has the highest mortality rate.

On the same floor, the 'BASEGATE Yokohama Kannai Clinic,' which our group supports in its operations and provides women-only health checkups and medical examinations, will be established to offer outpatient care and treatment which is scheduled to open in spring 2026.

HIMEDIC Care

Well-being for the 100-year life era begins here.

HIMEDIC RESIDENCE THE GARDEN

One of the key factors threatening the well-being of the senior generation is **dementia**.

The knowledge and techniques in **dementia prevention** cultivated by Grand HIMEDIC Club are integrated into the care program at HIMEDIC RESIDENCE The Garden, supporting a richer and healthier life.

1 Tailor-made medical checkups by HIMEDIC.

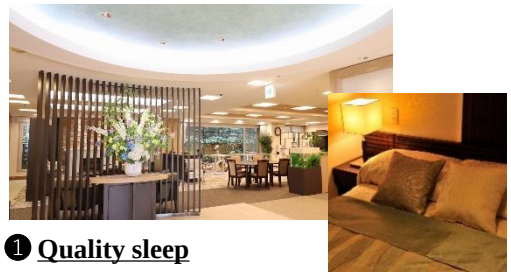
We comprehensively evaluate the brain, bones, muscles, and lifestyle-related diseases to design a personalized 'HIMEDIC Care' plan tailored to each individual's condition. Through **highly accurate personalized medical checkups**, we help you achieve optimal health management for your future self.

Chairman of the Board, Grand HIMEDIC Club
Dr. Sachio Kuribayashi

Tokyo Midtown Clinic Director
Dr. Junichi Taguchi

Grand HIMEDIC Club is engaged in 'dementia prevention' and 'hormone management' as part of its 'care prevention' program for members, backed by numerous research achievements conducted by group physicians and other experts.

2 Brain-friendly care program



❶ Quality sleep

High Medic offers the brain health-supporting ingredient **'Plasmalogen,'** which has been extensively researched over the years, through **smoothies** and other means. Additionally, we encourage regular sunbathing to promote serotonin secretion and have installed circadian rhythm control lighting*1 within the facility to regulate biological rhythms. This helps naturally stimulate melatonin secretion at night, guiding you to a restful and peaceful sleep.

Professor at the Kobe University Graduate School of Health Sciences
Dr. Hisatomo Kowa

❷ Exercise

We have introduced a **'dementia prevention exercise program'** supervised by Dr. Hisatomo Kowa, professor at the Kobe University Graduate School of Health Sciences . This program supports the maintenance and improvement of brain function while promoting the secretion of growth hormones to enhance muscle strength and the ability to lead an independent life.

❸ Nutrition

Based on the **'MIND Diet*2,'** which aims to prevent lifestyle-related diseases and promote brain and body activation, HIMEDIC's doctors and registered dietitians have carefully supervised the menu. This dining experience, combining deliciousness and health, provides daily vitality.

❹ Communication

Through warm interactions among residents and with staff, the 'happiness hormone' oxytocin is released, fostering emotional connections that gently support both brain and physical health.

A place that bridges 'Healthcare' and 'Living,' offering true well-being where mind and body are in harmony.

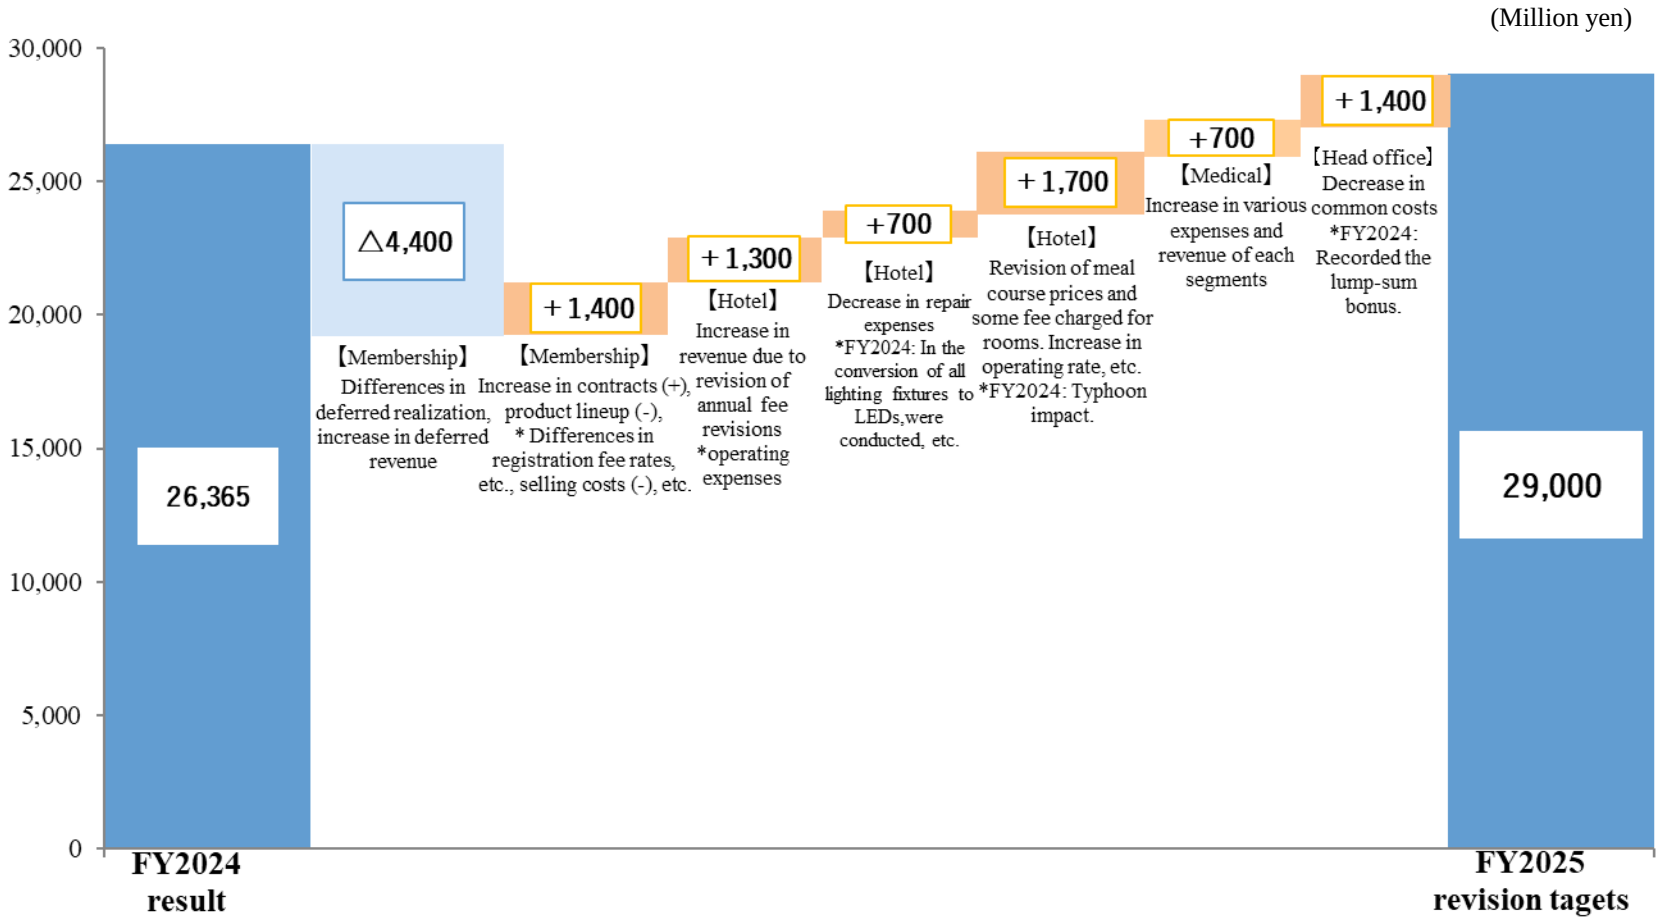
Full year Earning plan for FY2025:Operating Income (compared with the same period of the previous FY)

【Targets for FY2025】Change in operating income (vs. previous year)



In Hotel and Restaurant Operations, the Group anticipates a significant increase in income due to higher revenues from annual membership fee revisions and enhanced productivity. In Membership Operations, the increase in deferred revenue carried forward to the next fiscal year due to an increase in the percentage of new properties sold is expected to result in a decline in income, but including the effect of existing hotel membership price revisions, hotel membership contract value is seen increasing significantly.

Group's Development Schedule

■ Hotels development is planned at a pace of approximately 1～1.5 facility per year from FY2025 onward.
(More than 9 new candidate sites are under consideration for FY2025 and beyond.)

■ In addition to five-year Hotel Operations investment of 250 billion yen (including hotel inventory), active investment in the Medical Operations
*The company plans to make an investment of 100 billion over 10 years.

■ We plan to open one HIMEDIC facility in fiscal 2026 and are considering expanding the business by fiscal 2030, with six locations currently under deliberation.

＜Effect of change in revenue recognition standard (HIMEDIC registration fees)＞

From the fiscal year ending March 31, 2022 onward, registration fees associated with sales will be pro-rated over a period of 8 years.

⇒The amount recorded for the year is recalculated by taking into account past sales over the most recent 8 years.

(As a result, the amount recorded in the fiscal year ending March 31, 2022 will be at the same level as the average of the sales amount for each single year from the fiscal year ended March 31, 2013 to the fiscal year ending March 31, 2022.)
