**Announcement of Establishment of New “Grand HIMEDIC Club” Facility and Membership Sales Launch for “HIMEDIC Tokyo Bay Course”**

HIMEDIC, Inc., a wholly owned subsidiary of Resorttrust, Inc. (“the Company”) operates the “Grand HIMEDIC Club,” a comprehensive medical support club that provides services such as highly accurate medical examinations and medical consultations together with partner medical institutions. It has resolved to establish “HIMEDIC Tokyo Bay” as a new “Grand HIMEDIC Club” facility in the TOC Ariake East Tower (Koto-ku, Ariake). In line with the establishment of this new facility, the Company hereby announces the launch of membership sales for “HIMEDIC Tokyo Bay Course” from June 15. Furthermore, the Company plans to begin accepting medical examinations at “HIMEDIC Tokyo Bay” from fall 2015.

In the “HIMEDIC Tokyo Bay Course,” medical examinations will be contracted to Midtown Clinic Medical Corporation, and will be conducted in a location with state-of-the-art equipment, including the first PET/MRI scanner for medical examination use in Japan, and the first breast PET scanner in the “Grand HIMEDIC Club.” Therefore, there is a system in place to ensure a high probability of the early discovery of cancer, cranial nervous system disorders, and cardiovascular disease. Also, “HIMEDIC Tokyo Bay” offers new medical consultation services and cancer therapy consultation services, as the Company strives to strengthen the follow-up system. In order to conduct all items in the detailed screening more efficiently, medical examinations are held in two stages in this course. The first takes place at the “HIMEDIC Tokyo Bay Imaging Center” (opened in HOTEL TRUSTY TOKYO BAYSIDE, Koto-ku, Ariake on April 27, 2015) operated by Midtown Clinic Tokyo Bay, and the second takes place in the new “HIMEDIC Tokyo Bay” location to be operated by a clinic newly established by Midtown Clinic.

“Grand HIMEDIC Club” is a “comprehensive medical support club” that offers a wide range of support services in addition to medical examinations, based on accumulated medical examination data on members, including references to medical institutions in the event that a disease is discovered, consultation services by medical concierges with nursing qualifications and follow-up dietary and exercise guidance, and health consultation services from the “Club Doctors.” At present, there are five medical examination locations, including HIMEDIC YAMANAKAKO, HIMEDIC OSAKA, HIMEDIC Tokyo University Hospital, HIMEDIC MIDTOWN, and the PET medical examination location HIMEDIC Tokyo Bay Imaging Center. The Company also plans to establish HIMEDIC Kyoto University Hospital in the HIMEDIC ward in Kyoto University Hospital in spring 2016, and HIMEDIC NAGOYA in summer 2016.

“HIMEDIC Tokyo Bay” will solicit approximately 3,100 members. Furthermore, the Company expects the total value of all HIMEDIC contracts to be approximately ¥4.4 billion in the fiscal year ending March 2016, including facilities planned to newly open..
