**Announcement of Start-Up of Medical Examination
at HIMEDIC Tokyo Bay by GRAND HIMEDIC Club**

HIMEDIC, Inc., a wholly-owned subsidiary of Resorttrust, Inc. (“the Company”) operates the “GRAND HIMEDIC Club,” a comprehensive medical support club that provides services such as highly accurate medical examinations and medical consultations together with partner medical institutions. This is to announce that medical examination will start today at “HIMEDIC Tokyo Bay (medical examination contracted to Midtown Clinic Ariake)” (within TOC Ariake East Tower, Ariake, Koto-ku) that will be the sixth medical examination facility of GRAND HIMEDIC Club.

“HIMEDIC Tokyo Bay Course” of GRAND HIMEDIC Club that has its main medical examination facility at “HIMEDIC Tokyo Bay” provides a high-precision medical examination system for detecting malignant diseases such as cancer, as well as brain disorders and cardiovascular diseases, by working with HIMEDIC Tokyo Bay Imaging Center (medical examination contracted to Midtown Clinic Tokyo Bay). The Imaging Center has introduced Japan’s first PET/MRI scanner and state-of-the-art breast PET scanner and other diagnostic equipment for medical examination purposes. Also, a medical consultation service will newly start for members of this course (including other nursing home members receiving medical examinations at HIMEDIC Tokyo Bay) in an effort to enhance follow-up after medical examinations.

*In HIMEDIC Tokyo Bay Course, the first medical examination is conducted at HIMEDIC Tokyo Bay Imaging Center (within Hotel Trusty Tokyo Bayside, Ariake, Koto-ku), and the second medical examination at the new facility HIMEDIC Tokyo Bay.

“GRAND HIMEDIC Club” is a “comprehensive medical support club” that offers a wide range of support in addition to medical examinations, based on accumulated medical examination data on members, including references to medical institutions in the event that a disease is discovered, consultation services by medical concierges with nursing qualifications and follow-up dietary and exercise guidance, and health consultation services from the “CLUB Doctors.” There are six medical examination locations, including HIMEDIC Yamanakako, HIMEDIC Osaka, HIMEDIC·Tokyo University Hospital, HIMEDIC·Midtown and the PET medical examination location HIMEDIC Tokyo Bay Imaging Center, in addition to HIMEDIC Tokyo Bay which will open soon. The Company also plans to establish HIMEDIC Kyoto University Hospital in the HIMEDIC ward in Kyoto University Hospital in spring 2016, and HIMEDIC Nagoya in summer 2016.

HIMEDIC Tokyo Bay has been soliciting members since June 2015, and expects the total value of HIMEDIC membership contracts to be approximately ¥4.7 billion in the fiscal year ending March 31, 2016, including other new facilities scheduled to open.
